

# SUDIKSHA GUPTA

Aspiring Product Manager | Product Strategy • Execution • GTM

sudiksha2707@gmail.com | 6306817998 | [linkedin.com/in/sudiksha-gupta1812](https://www.linkedin.com/in/sudiksha-gupta1812)

## PROFESSIONAL SUMMARY

Aspiring Product Manager (BBA, Marketing) who spotted a gap in small-factory procurement and built an SQL-backed system now in active use at Hard Chrome Tech. Experienced in project delivery and early-stage GTM, with a strength in turning user and business needs into prioritized plans, aligning cross-functional teams and using AI and automation to move faster.

## EXPERIENCE

### Codven Solutions | Project Coordinator

May 2025 – Apr 2026

- **Delivery ownership:** Owned **[X]** projects across the full lifecycle (discovery, planning, execution, launch, closure) as the single point of contact between business, design and tech teams
- **Requirements to execution:** Gathered stakeholder needs, clarified scope and acceptance criteria, and broke them into prioritized, user-story-style tasks
- **Prioritization & trade-offs:** Ranked work by impact, effort and deadlines; managed scope changes and dependencies to protect timelines
- **Cross-functional alignment:** Ran status syncs and follow-ups, removed blockers and kept teams aligned, achieving **[X% on-time delivery]**
- **Risk & visibility:** Flagged risks early with mitigation plans; kept trackers, timelines and status reports updated for full visibility
- **Product thinking:** Questioned the “why” behind each request and validated it against user and business goals before execution

### Perfect Ventures | Founder's Office Intern

Jun 2026 – Sep 2026

- **0→1 GTM:** Joined as Meesho AI Services (MAS) was just launching; helped prepare GTM by defining target segments and ICPs, positioning, value proposition and outreach channels
- **Customer discovery:** Researched target companies and decision-makers, mapped their pain points, and refined the pitch and demo flow through mock client calls and early feedback
- **Onboarding & funnel:** Built the consultant network (**[X consultants]**) and onboarded **[X clients]** end to end, learning how product, customer needs, sales and revenue connect
- **Market & competitor research:** Studied market segments and competitors across India and global geographies to inform positioning
- **Execution:** Tracked initiatives and action items with leadership and used n8n and AI-assisted workflows to speed up outreach and follow-ups

## PRODUCT PROJECTS

### Case Studies

- **Zomato Reorder Drop-off (HelloPM):** analyzed why users drop off at the reorder step. **Finding:** friction in re-selecting past items and unclear price/ETA changes cause abandonment; proposed one-tap reorder with price/ETA confirmation, prioritized by impact vs effort [Link ↗](#)
- **Pinterest Product Analysis:** evaluated user flows, pros, cons and bugs. **Finding:** discovery is strong but the path from saved ideas to action is weak; recommended a better save-to-action flow and board organization, measured by save-to-click rate [Link ↗](#)
- **Procurement System:** found that small mills and factories lack a structured way to track POs, vendor dues and spend; researched procurement systems and defined user needs and the solution approach [Link ↗](#)

### Automation

- **n8n Email Automations:** automated day-to-day work such as MAS outreach and sales follow-ups, saving **[X hrs/week]** [Link ↗](#)

### Build: Real Products

- **Procurement System (Hard Chrome Tech):** designed and built an SQL-backed system (vendors, items, POs, invoices, payments, vendor ledger, dashboard) replacing manual tracking; now in active use, tracking **[X vendors, X POs]** [Link ↗](#)

## SKILLS

**Product:** Requirement analysis, prioritization, GTM, user and market research, case analysis, stakeholder management

**Data & Tools:** SQL, GA4, Google Search Console, Advanced Excel, Figma, Notion, n8n, LinkedIn Sales Navigator, Apollo, Lusha, Lemlist

**AI:** AI tools, prompt writing, workflow automation

## EDUCATION & CERTIFICATIONS

**BBA (Marketing Specialisation), IIMT Group of Colleges**

2022 – 2025 | CGPA 7.2/10

Agile Scrum | Digital Marketing Fundamentals & SEO (Simplilearn) | Product Management Certification (HelloPM, pursuing)
